WHAT IS THE UN 2030 AGENDA

Sustainable Development Goals

More popularly known as Sustainable Development Goals

SUSTAINABLE DEVELOPMENT GOALS

Adopted by the UN Member States as the blueprint for peace and prosperity for the people and the planet

It recognizes that ending poverty and other deprivations must go hand-in-hand with strategies that improve health and education, reduce inequality, and spur economic growth – all while tackling climate change and working to preserve our oceans and forests.

TWO UNIQUE NATURE OF ASSOCIATIONS THAT WILL IT EASY TO ALIGN WITH THE SGDS:

ADVOCACY: A strong sense of #community working together for a common cause can be harnessed to align it with the goals and targets of the SDGs

MOBILIZATION: volunteering is enshrined in associations – and when mixed with a call to action – associations are better equipped in mobilizing their community compared to other groupings

A large, 3D-rendered red question mark is the central focus. It is partially overlaid by a dark grey circular graphic that contains a faint, semi-transparent circular gauge with tick marks and numbers (140, 150, 190, 200, 210). The background is white. The text 'WHY CONTRIBUTE?' is written in white, bold, sans-serif capital letters on the dark grey circle.

**WHY
CONTRIBUTE?**

The issue of **SUSTAINABILITY** is universal and belongs to everybody

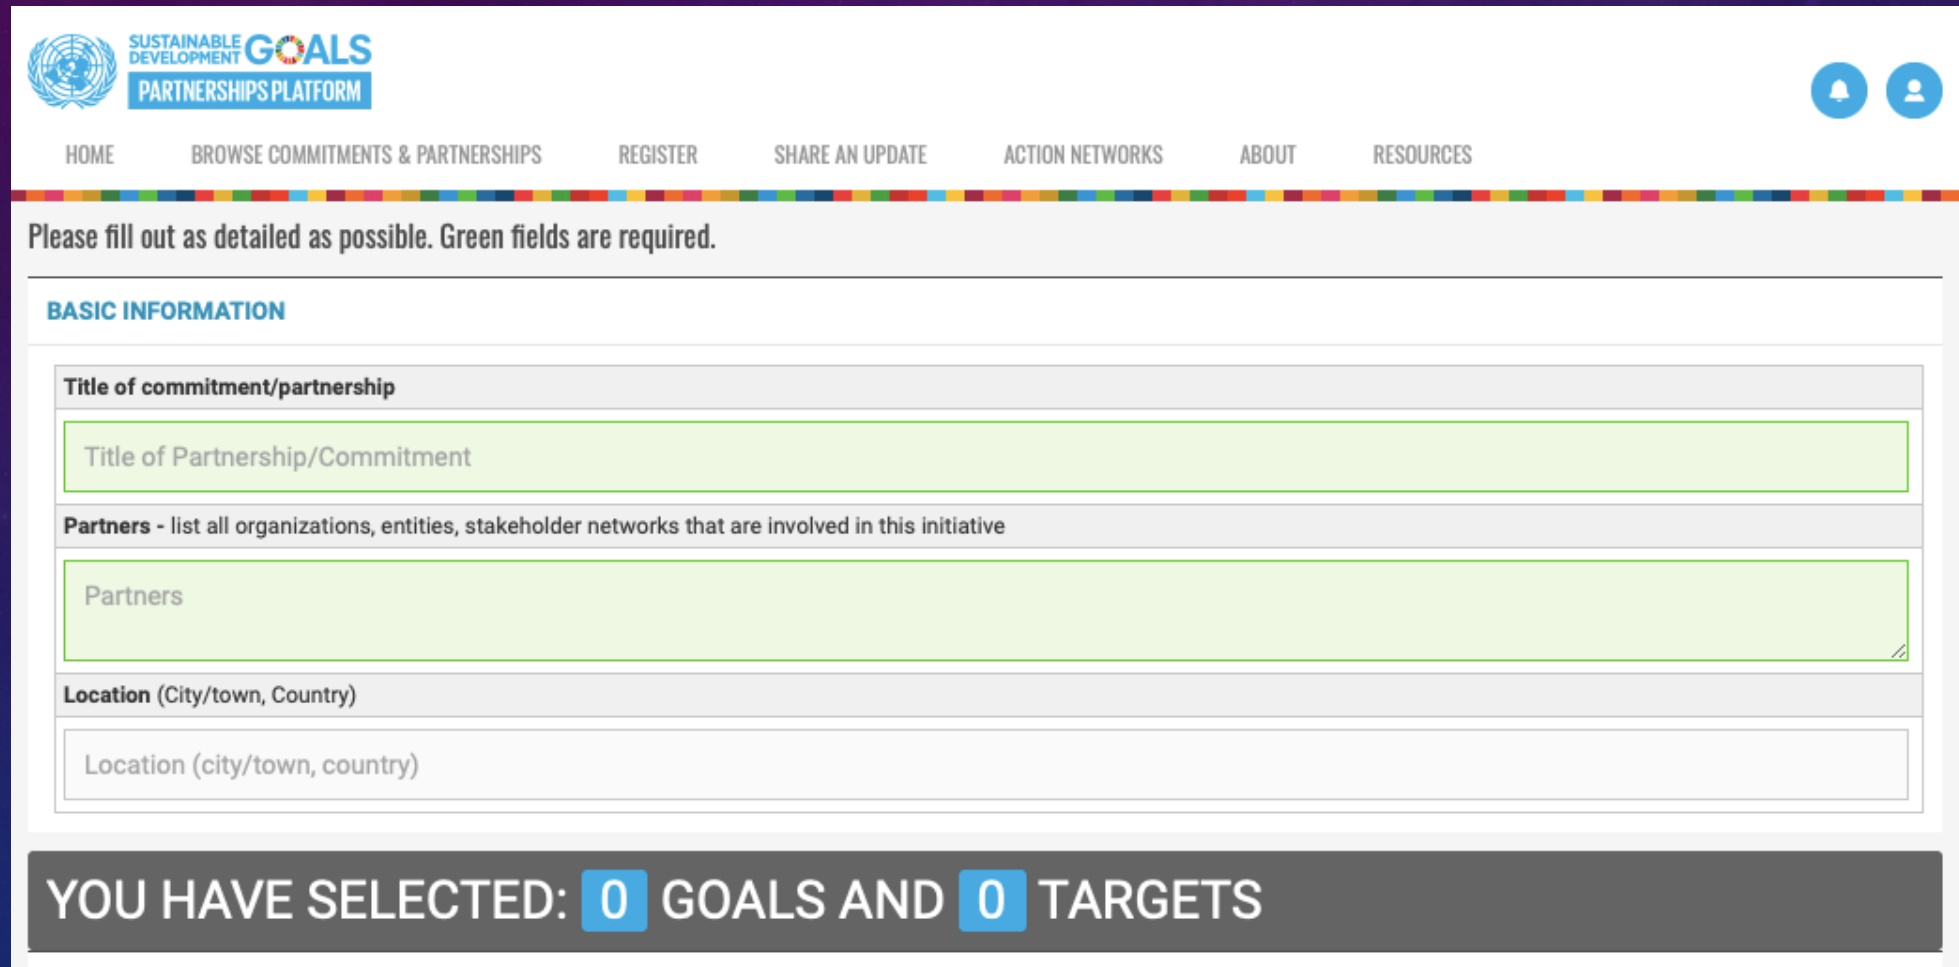

Associations are **UNIQUE PLATFORMS** that can easily link their current priorities and activities to SDGs – and thereby linking their members' lived-realities to the SDGs

Engagement with the UN through **THOUGHT LEADERSHIP** – a community's successful implementation should be communicated and reported so that other communities can learn from.
